

Wireless Water and Freeze Alarm (WWA-01)

The Wireless Water and Freeze Alarm WWA-01 will provide you with peace of mind and protection you expect from a quality product. Water damages are caused by leaking pipes, corroded water heaters, water storage tanks, refrigerator drip pans, bathroom, kitchen and laundry room fixtures etc. The Wireless water and Freeze Alarm is a Z-Wave™ enabled device and is fully compatible with any Z-Wave™ enabled network. Inclusion of WWA-01 into a Z-Wave™ network allows remote status monitoring and alerts when the detector is triggered. Other Z-Wave™ nodes in the system also act as repeaters if they support that function.

- *Works with your existing Z-Wave enabled system or as a stand-alone device*
- *Use program button on the device to install in seconds*
- *Flexibility to customize system*
- *If included in a Z-Wave™ network it will allow remote status monitoring*
- *If not included in a Z-Wave™ network will alert you using audio alarm*
- *Works for multiple alarm events*
- *Stainless steel hardware*
- *3.6V lithium battery included, will alert user when battery should be changed*
- *Multiple applications (see back for suggested uses)*
